

Message from Ms. Safran, High School Principal

Welcome to Holdingford Public Schools!

No matter if you are new to our district or a multi-generation family, we are committed to making sure your students are receiving the best possible education. Holdingford is the home of the “Huskers.” A close-knit community striving for excellence in everything we do. HHS currently enrolls approximately 500 students in grades 7 – 12. Our staff is student centered and works diligently for student success. The students and staff at HHS work to build upon the tradition of excellence in the areas of academics, athletics, and fine arts. Excellence is our expectation!

Holdingford High School provides rigorous and comprehensive curricula to meet the needs of our changing society. HHS has an extensive concurrent college program with more than 15 college courses offered totaling over 53 college credits through Fond du Lac Tribal and Community College. These credits transfer to any of the colleges in the Minnesota State University System. These courses are taught by Holdingford teachers and offer students the opportunity to take college courses while never leaving the building. Our staff teaches courses in economics, government, history, education, writing, literature, trigonometry, statistics, algebra, calculus, and Spanish.

HHS not only offers students a comprehensive curriculum, but also offers more than 30 academic, athletic, fine arts, and leadership programs for students to participate. We continually look for ways to provide opportunities for all students to be successful in an inviting school environment. HHS is committed to help students grow and reach their potential academically, athletically, socially, and emotionally.

It is the expectation of HHS to do things “The Husker Way” with respect, responsibility, and pride. Our staff and students will continue HHS's tradition of excellence. With the ongoing support and involvement of our parents and communities, we embrace the many opportunities to learn, teach, and appreciate the unique gifts that we can offer to one another. We invite you to learn more about our wonderful school and community.
