Dear Parent or Guardian:

Again this school year, students in all grades will have the option of purchasing a bottled water with his/her meal. I would encourage students to also drink milk to ensure they are getting adequate calcium, Vitamin D and protein. The size of the water will be 16.9oz for 50¢.

High school students will need to pay cash for any ala carte items. Elementary students may pay cash or, with their parent's permission, may charge one bottle of water each day. There must be sufficient funds in the account to cover the purchase. Elementary students participating in the free/reduced lunch program may purchase water and extra milk with their meal accounts if their parents put enough funds into the account to cover the extra purchases. If you wish to give permission to your K-6 student to purchase water, please fill out the bottom portion of this letter and return to foodservice at any time during the school year. Parents may also change their mind at any time during the year by sending a written notice to foodservice.

Melissa Anderson
Foodservice Director

I give my permission to my child{ren}:

1. _____ Gr. _____
2. _____ Gr _____
3. _____ Gr _____

to purchase one bottled water daily with his/her lunch account.
