

**Automated Phone Calling Information:**

Holdingsford Schools has implemented a new phone calling service called Skylert for low lunch balances, weather closings and other important school information. With this new system, parents have the ability to log into their Skyward Family Access account and update their phone numbers as well as select which numbers should get calls for what purposes. Log into Skyward Family Access and select Skylert from the menu on the left side of the page. On that page, you may update your information.

Low lunch balance calls will again go out on Monday and Thursday evenings. You may check your balance anytime on Skyward Family Access and select Make Payment to pay lunches online using your credit or debit card. If you prefer to send cash, please put it into a sealed envelope with the child's name, grade and amount enclosed clearly printed on the front. For check payments, please put the name of one child in the family on the memo line to be sure it is credited to the correct family.

Please be sure to log into Skyward Family Access to check that your contact information is current. Should you need assistance with your login or password information, please contact the building secretary at your child's school.
